Release Plan:

Plan for Release #1		
User Stories	Story Points	Prio
Sprint 1		
As a customer, I want to be able to create an account and login so that I can access the website and have my information saved.	5	M
As a business owner, I want to be able to create an account and login so that I can access the website and have my information saved.	5	M
As a customer I want access to event information so that I can schedule myself for events.	2	M
As a business owner I want to be able to create events with time slots so that users can sign up for them.	2	M
Sprint 2		
As a customer I want to be able to sign up for events so that I can tell the business I am coming.	3	M
As a customer I want to be able to see the events I registered for so that I can remember which ones to	5	M

go to.		
As a customer I want to be able to cancel scheduled events so that I can free up time slots that I can no longer make.	3	M
As a business owner I want to be able to cancel events to let users know they will no longer occur.	5	M
As a business owner I want to be able to set a capacity for events so that I don't book more customers than I can handle.	1	M
As a business owner I want to be able to add a list of user emails that can see certain events so that I can restrict those events to paying members only.	13	S
As a business owner I want to be able to create repeating events so that I don't have to spend so much time creating events.	8	S
Sprint 3		
As a customer I want to be able to search for events so I can find the event I am looking for.	5	S
As a business owner I want to be able to create a profile for users to be able to see info about my business.	3	S
As a business owner I want to be able to set age restrictions so that customers that might be too young for an event aren't able to sign up for them.	2	S
As a business owner I want to be able to set membership restrictions so that customers that don't have the tier of membership can't sign up for the event.	2	S
As a business owner I want to be able to set restrictions based on the number of events users can sign up for each day so that all users don't hoard space from others.	3	S
As a customer, I want to share my events with friends on social media so they can reserve the same time slots.	5	C
As a web admin I want access to backend information so that i can manage the operation of the website. I can store information about events such as times,	5	C

attendees, etc.		
As a business owner I want to have access to analytic information so that I can be more informed in my business decisions.	7	C
As a business owner I want to be able to embed the app so that users can sign up for time slots on my company website.	8	C
Sprint 4		
As a business owner I want to be able to accept payments so that I can charge customers for events.	13	W
As a business owner I want to be able to generate URLs for my events so that potential customers can find out more about my events.	3	W
As a customer I want my scheduled events to integrate with my Google Calendar so my entire schedule is in one place.	3	W
As a customer I want to be able to add a profile picture to my account so that my profile can be unique.		W
As a business owner I want to be able to write the description of my events in rich text to make the description more readable.		W

Product Backlog:

We fit everything we discussed into the release plan. It's possible we overscheduled ourselves and will need to reevaluate once we get started with development.
