Sprint 2 Report
SlotMeIn
5/5/2021

Actions to stop doing:

Our process is working well for the group. The improvements that can be made have more to do with adding things into our process.

Actions to start doing:
- List non task activities on Trello so that we can track progress and team members can be aware of what is going on.
- Define our API's more rigidly
- Writing tests for our code
- Set definition of done

Actions to keep doing:
- Keep meeting at 10am MWF
- Keep helping teammates out/being available in Discord
- Keep our pace
- Pushing to GitHub often

Work completed/not completed:
- Fully completed: As a customer I want to be able to sign up for events so that I can tell the business I am coming.
- Fully completed: As a customer I want to be able to see the events I registered for so that I can remember which ones to go to.
- Fully completed: As a customer I want to be able to cancel scheduled events so that I can free up time slots that I can no longer make.
- Fully completed: As a business owner I want to be able to cancel events to let users know they will no longer occur.
- Fully completed: As a business owner I want to be able to set a capacity for events so that I don't book more customers than I can handle.
- Not completed: As a business owner I want to be able to add a list of user emails that can see certain events so that I can restrict those events to paying members only.
- Fully completed: As a business owner I want to be able to create repeating events so that I don't have to spend so much time creating events.

Work completion rate:

User stories completed: 6

Estimated ideal work hours completed: 47

Days: 14

User stories per day: 0.43

Hours per day: 3.36
